- API integration
- AI powered Webapps
- Automation
- Attention to detail
- Quick learner
- Flexibility
- Good understanding of UI/Ux

PROFILE

Full-Stack Developer | React, Node.js, TypeScript, Next.js, MongoDB
Meticulous full-stack developer with a Computer Science degree and a passion for building efficient, scalable, and high-quality web applications. I specialize in React, Node.js, TypeScript, Next.js, MongoDB, and modern JavaScript technologies. I thrive on delivering clockwork-level solutions with clean, maintainable code and rapid execution.

WORK EXPERIENCE

- PeakCraft Leader 2024 - present
 - As the leader of Hawassa university's tech club, I spearheaded initiatives that helped students develop technical skills, collaborate on projects, and prepare for careers in software development. My role involved:
 - Organizing hackathons & coding competitions, fostering innovation and teamwork.
 - Conducting workshops on full-stack development, helping peers master React, Node.js, and TypeScript.
 - Leading project teams to build real-world applications, improving problem-solving and collaboration.
