Hard Skills

- Full-stack Web Development
- Automation
- Data Scraping & analysis
- API Planning & development
- Bot Development

Soft Skills

- Attention to detail.
- Quick learner.
- Flexibility
- Good understanding of UI/UX principles and Design Patterns

Education Background

- UNIVERSITY OF GONDAR
  BSc. Computer Engineering
  2019 - 2023 (Gap - year)

- Neway Challenge Academy
  Graduated Top 5 | Class of 2019
  2014 - 2019

About Me

I am a Full Stack Developer with a passion for building innovative and efficient web applications.

My proficiency in utilizing a variety of technologies such as Python & Typescript, and my keen eye for design gives me the ability to breathe life into creative concepts.

Furthermore, my experience in DevOps and Networking sustains their existence and ensures they evolve and thrive in the ever-changing digital landscape.

Professional Experience

- **IDS.company | Fullstack Web Developer**
  2022 – Present

- **Elemental Softwares PLC. | Fullstack Web Developer**
  2022 – 2023
  Key responsibilities:
  - Designing, developing, testing and deploying desktop and mobile web applications in a full stack environment.
  - Integrating front-end UI components with back-end APIs and services.
  - Identifying performance issues and solutions to achieve scalability on the application side of projects.
  - Consulting with product managers on feature specifications for upcoming releases to ensure quality assurance during development process stages.
  - Optimizing application code (both server-side and client-side) for maximum speed, scalability, maintainability, re-usability, security and reliability of web applications in production environments.

Achievements

2022-2023	3rd place Huawei Ict competition Global finalist (Shenzhen , china).
2021	Participated in Hacktoberfest 2021
